Spring 2008 Meeting

Our (rather sparsely attended) spring meeting was held on May 22nd at the Imperial War Museum in London.

The report can be seen by following this link:
<http://www.dreamusers.org/meetings/2008-05.htm>

All the presentations (and the correspondence with CODA) are on the members site: [Click Here](#).

Autumn 2008 Meeting

Following a discussion at the Spring meeting, we are looking at the possibility of making the next meeting a 2-day gathering. Members asked for vendor presentations and case studies, so we are going to try and arrange both.

An outline proposal for the 2-day agenda is here:
<http://www.dreamusers.org/meetings/2008-11.htm>

Members who present a case study will have their overnight accommodation paid for by the User Group.

We will start arranging vendor sessions at the beginning of September, but **PLEASE** let us know anything you'd like added / removed before that.

Agresso

The Agresso UK User Group is allegedly an independent group of Agresso customers, but to join you have to contact Agresso.

I think we need to invite them to our Autumn meeting – what do you think?

Known Problem Reports

You are reminded about our 'Known Problem Reports' section on the members' website.

The idea is that you enter details of an issue with Dream (bug, functionality problem, etc) telling us:

- Version in which problem found
- Build in which problem found
- Description of problem
- Diagnosis – if you have one

There are currently six KPRs on the site. 3 from me, two from Mike Booty and one posted by a member – who won a bottle of champagne for his/her trouble (it was a she who added the record using a he's login).

Let's see how many interesting Dream 'issues' we can get on to the site this summer! The three members who enter the most KPRs before the next meeting (excluding Mike Booty and John Walton) will each win a **bottle of champagne**.

[Click through now](#) to enter your KPRs.

CODA

There have been some disturbing emails flying about CODA's attitude to certain senior users, and also about Agresso's attitude to Dream.

Maybe those involved should look at the 'General' thread on the discussion boards...

Object

The objective of the DREAM User Group is to provide services to Member organisations using the DREAM accounting system produced by CODA plc. The User Group will provide information and hold meetings, and will make collective representations to CODA and others for the general benefit of the Members.

Subscription

This message was sent to you because your organisation (which is a member of the DREAM User Group) has previously nominated you as an individual member, or because you attended our spring meeting. To unsubscribe, please click [here](#).
