Autumn Meeting

Our next meeting will be held at Whittlebury Hall, near **Towcester**, Northamptonshire on the 18th and 19th November.

The meeting will be a 2 day affair, like the one last November in Warwick. The **first day** will be a normal meeting with plenary sessions, vendor and (hopefully) member presentations. The **second day** will be a half day devoted to discussion groups, special interest groups. And software surgeries about our own software and certain third-party products.

There will be some form of entertainment laid on for the evening of the 18th, but Lindsay is still trying to decide what gives the best combination of enjoyment and value. An **evening meal** will be provided. If you stay over, you will be asked to contribute £75 to the hotel bill, as last year.

Please would you let us know, by replying to this email, if you would like to attend the meeting on the 18th AND if you would like to stay over till the 19th and join in the discussions on the 19th. Overnight places are limited so please reply early!

A programme for the meeting and joining instructions will be sent out on or about November 6th.

Sorry for the late advice, but the day job has prevented me from getting on with User group matters – I've had two large projects on my plate for several months now.

Appeal to Members

Please could we have a volunteer to do a presentation at the next meeting. Go on -0 don't be shy. Tell us how you've integrated Dream with your other systems, how your special report saves you hours of work, how your clever data input screens have made lives easier or how you've used the Dream User group posting spreadsheet.

DUG Software

Our '**posting spreadsheet**' is available for download by members. You must be a licensed Dream user to use this, and your PC must have the 'External DLL' installed. Full instructions (for administrators) are supplied with the spreadsheet. You may want to develop your own end-user instructions. Click [here](#) to download from the members' website (login required).

The '**budget maintenance**' program demonstrated at May's meeting has been delayed by the day job, but it has been pretty much completed, it is being beta tested as we write and it will be available in its first incarnation straight after the November meeting.

Members website

The **3.3 Upgrade** list section on the members website has seven comments on it, but all are from either me (John Walton) or from Mike Booty.

Could users with 3.3 upgrade issues please consider posting their remarks on this section of the site before the meeting on November 18th?

Anyone posting a **Known Problem Report** before the meeting could be in with a chance of winning the bottle of champagne in our 'Top Hat' session at the meeting.

Object

The objective of the DREAM User Group is to provide services to Member organisations using the DREAM accounting system produced by CODA plc. The User Group will provide information and hold meetings, and will make collective representations to CODA and others for the general benefit of the Members.
